Freelance lighting camera operator with 17 years experience filming NGO films, documentaries, sport and corporates/branded content. I'm experienced in a wide range of broadcast cameras and own a Sony FX-9 kit with Fujinon MK Lenses. I've filmed all over the world and in particular remote tough locations with sensitive subjects, especially in Africa. My work has been broadcast on all major UK TV channels and I also edit, so I know the importance of getting the right shots for the story. I'm a member of the SAB network for trusted experienced crew: [www.thesabnetwork.com](http://www.thesabnetwork.com)
